Describe your Drinking Water System

Oil Springs Water Distribution System serves approximately 698 residents. The Distribution system consists of 50 mm diameter to a 300 mm diameter water mains. Components are: sample stations, hydrants, water main isolation valves, residential water services and blow offs at dead ends. Jacobs (OMI) is the Operating Authority.

Oil Springs receives/purchases water from the Township of Enniskillen and is connected to the Enniskillen WDS at two (2) metered connections. No chemicals are added to the system by The Village of Oil Springs. Immediately upstream of the system, the Township of Enniskillen provides re-chlorination with a 12% chlorine solution of sodium hypochlorite to the Influent flow at the Enniskillen Reservoir. Enniskillen public Works analyzes chlorine residual at the reservoir.

The Enniskillen Reservoir has pressure monitoring equipment with 24/7 alarm monitoring capabilities.

Oil Springs distribution pressure is monitored at the Municipal Office by Jacobs Operators and documented in the facility logbook.

The Oil Springs Distribution System compliance sampling follows O. Reg 170/03 s 7-2 (3) and (4). Collecting seven (7) samples per week following the 4/3 rule. The Village of Oil Springs has qualified for the reduced lead sampling schedule and performed lead sampling in 2025 (April 1st & Oct 7th) and is scheduled for 2028.

HAA's – are collected quarterly at Hydrant # 34, closest to the Enniskillen Reservoir where the chlorine is deposited into the Oil Springs WDS

THM's –are collected quarterly, alternating between between Hydrant # 38 and Sample Station # 1. Both locations are dead-ends and the furthest points in the system.

Hydrant and Dead ends are flushed semi-annually, and water main valves are exercised annually.

List all water treatment chemicals used over this reporting period.

none

Were any significant expenses incurred to?

- Install required equipment
- Repair required equipment
- Replace required equipment

Please provide a brief description and a breakdown of monetary expenses incurred.

Watermain repair & maintenance - \$5,663.24
 Hydrant repair & maintenance - \$761.35
 Water Meter repair & maintenance - \$5,824.79

Provide details on the notices submitted in accordance with subsection 18 (1) of the Safe Drinking Water Act or section 16-4 of Schedule 16 of O.Reg.170/03 and reported to Spills Action Centre
