

ELEMENT # 2 – QUALITY MANAGEMENT SYSTEM (QMS) POLICY

OMI (Jacobs) is the Operating Authority for The Village of Oil Springs Water Distribution System and is committed to comply with all water legislative requirements & regulations, to supply clean safe drinking water that meets the consumers requirements and understands the importance of the maintenance & continual improvement of the QMS

The Operating Authority is committed to the principals & objectives set out in the QMS Policy.

The QMS Policy is to:

- *maintain and continually improve the Quality Management System.*
- *supply clean safe drinking water to meet the consumers' requirements.*
- *comply with all applicable legislative requirements and regulations.*
- *provide effective communication between the Operating Authority personnel, the Owner and the Public*

The QMS Policy is approved by the Project Manager (Top Management) and is available on The Village of Oil Springs website at www.oilsprings.ca and posted at the Water Department.

Staff have the opportunity to review the Policy at the Operational Plan Staff Review

Date: October 7, 2026
